

Delivery Policy Statement

- Deliveries are made by courier.
- Delivery charges are posted on the order form and relate to destination, handling, and weight.
- Deliveries should take no more than 6 weeks, regardless of delivery method, unless overridden by additional explicit contractual provision such as for bespoke products/services. Urgent deliveries must be arranged separately.
- Automatic delivery may not be listed for every country due to a variety of logistic/shipping reasons. If you wish to have delivery to a country not listed on the default destinations, then contact Detech Europe Ltd by sending an email to sales@detech-europe.com or by telephone on +44 (0)1262 409944 to see if it is possible to make other arrangements.
- Shipping & Handling Costs: Please note that some items are expensive to delivery simply due to their size and weight. Moreover, these figures must account for handling and related costs as well.
